Annual Well Visit Instructions

We are glad you have scheduled your Medicare covered **Annual Well Visit** with us here at **THOMAS N. KIAS, M.D., P.C.**

The **Annual Well Visit** allows you and your provider to sit down and create a customized *plan of care* that will outline tests, services and other procedures that should be done over the next 5 - 10 years.

To provide you with a complete **Annual Well Visit** we will do the following:

1. Review the **Health Risk Assessment Form** that you should bring to your **Annual Well Visit**
2. Perform a limited physical examination
3. Update your medical, family and social history
4. Review the list of all doctors and healthcare providers you see
5. Ask you questions about your lifestyle, living conditions, level of safety and security

Following the above portion of the **Annual Well Visit**, your provider will then:

1. Create and give you a plan of care that outlines the services, tests and/or procedures you should have done over the next 5 to 10 years
2. Offer you additional healthcare advice on other issues that may help improve your lifestyle and overall health

So, for your Annual Well Visit to be a complete success, you will need to bring:

1. Your completed **Health Risk Assessment Form** (given to you at check-out or available at internalmedicineathensga.com)
2. A list of the physicians and other healthcare providers you currently visit
3. All of your current medications (prescription and over-the-counter)

We look forward to seeing you soon,

THOMAS N. KIAS, M.D., P.C.
