

# ATHENS AREA INTERNAL MEDICINE

## Annual Well Visit Instructions

We are glad you have scheduled your Medicare covered **Annual Well Visit** with us here at **AAIM**

The **Annual Well Visit** allows you and your provider to sit down and create a customized *plan of care* that will outline tests, services and other procedures you should have done over the next 5 – 10 years.

To provide you with a complete **Annual Well Visit** we will do the following:

1. Review the **Health Risk Assessment Form** that you will need to bring with you during your Annual Well Visit.
2. Perform a limited physical examination
3. Update your medical, family and social history
4. Review the list of all the other doctors and healthcare providers you see
5. Ask you some questions about your lifestyle, living conditions, level of safety and security

Following the above portion of the Annual Well Visit, your provider will then do the following:

1. Create and give you a plan of care that outlines the services, tests and/or procedures you should have done over the next 5 to 10 years
2. Offer you additional healthcare advice on other issues that might help improve your lifestyle and overall level of health

**So, for your Annual Well Visit to be a complete success, you will need to bring:**

1. Your completed Health Risk Assessment Form (given to you at check-out)
2. A list of all the physicians and other healthcare providers you currently visit
3. All of your current medications (prescription and over-the-counter)

We look forward to seeing you soon,

**Elizabeth L. Johnson, MD    Laurent M. Morel, MD    Clara B. Herrin, MD**

**1000 Hawthorne Ave, Suite H, Athens, Ga 30606**
